Interchange Action Request (IARs)

Our policy at Hollander is to write the Interchange to reflect the wishes of our clients. Our client contacts (road and trade shows, regional and association meetings, and feedback to our support and Interchange departments), provide us with guidance on the Interchange. The latest input from all Interchange users is incorporated into this Interchange release. We processed 240 Interchange Action Requests (IARs); 196 data changes were implemented, and 40 Notes and Idents were added.
