Added Interchange Coverage

Partial interchange data is now available for Key Fobs (Part Type 654). Interchange numbers were added for key fobs that were determined to have resale value. Most fobs made before 2005 have little or no value with the bulk of fobs that have value appearing in 2010 and later vehicles. The Hollander Interchange v88.01 release includes roughly 580 interchange numbers for Key Fobs with over 1400 applications.

New Images

In this Interchange release (v88.01), 679 Wheel (Part Type 560) and 9 Wheel Cover (Part Type 570) images were added.

Interchange Action Request (IARs)

Our policy at Hollander is to write the Interchange to reflect the wishes of our clients. Our client contacts (road and trade shows, regional and association meetings, and feedback to our support and Interchange departments), provide us with guidance on the Interchange. The latest input from all Interchange users is incorporated into this Interchange release. We processed 442 Interchange Action Requests (IARs); 348 data changes were implemented, and 81 Notes and Idents were added.

Submitting IARs

Our policy at Hollander is to write the Interchange to reflect the wishes of our clients. IARs can be submitted via email, the online form, or through the Powerlink Yard Management System.
